Approximately 1,000 crowded the grandstand at the 116th annual Columbiana County Fair at Lisbon Tuesday night for the 4-H "Revue" climaxed the first day's events. The fair ends Saturday night.

Paid attendance yesterday totaled 6,000 — the best first-day yet. Sunny skies greeted fairgoers this morning but scattered showers were predicted this afternoon and tonight.

Youth groups presented the entire program yesterday and a crowning of the king and queen was held during intermission of the revue, "TV Through the Week," presented by 4-H Club members and the County 4-H Council.

Clubs and advisors in the youth talent program were:

The Columbiana County square dancers and the 4-H Band also gave a performance.

A new 4-H song, written by Mrs. Doris Burkie, Mrs. Leo Jenkins, J. Warren Campbell and Richard Wilson, was introduced.

The revue committee consisted of Chester Roof, chairman; Harry West, director; Mrs. Leo Jenkins, publicity; Glen Bartholow, Ed Copeland, Mrs. Ike Skeels and Mrs. Steve Knizat. Larry Yeager of Salem was master of ceremonies and Harold Millikin was stage manager.

LISBON — Work has begun on widening and resurfacing 7.7 miles of Route 517 between Lisbon and East Fairfield, the Ohio Highway Department reported. The City Asphalt & Paving Co. of Youngstown, contractors for the \$184,340 project, is to complete work Nov. 30, the Division 11 office said at New Philadelphia.

RURAL SPECTACLE. The 116th annual Columbiana County Fair went into high gear Tuesday as 4-H Club members, Future Farmers of America and other young people took over the day's program. A view of the midway shows part of the crowd enjoying themselves at the rides and amusements last night. High spot of the 4-H Revue given in front of the grandstand was the crowning of the king and queen, Ray Moser of Columbiana R. D. 2, and Miss Donna Denny of Salem R. D. 2, all smiles. Livestock is prominent at the fair and Dave Cresser of Lisbon R. D. 4, a 4-H member, gave this Ayrshire heifer a wash-down preparatory to entering the animal in the judging. The heifer is owned by Miss Audrey Harrold of Leetonia R. D. 1.

U.S. Orbits Satellite But Payload Fails

CAPE CANAVERAL, Fla. (AP)

—The United States orbited a satellite launch platform today but it failed to fire a second payload into space as planned.

A 102-foot Atlas-Agena rocket thundered skyward from Cape Canaveral at 5:04 a.m. and the entire Agena second stage whirled into orbit.

Later it was to have injected a 675-pound payload called Ranger I toward a million-mile round trip journey into space.

More than three hours later the National Aeronautics and Space Administration announced that the space craft had failed to separate from the Agena stage.

A statement said the Ranger and Agena are in a near-earth orbit rather than the highly eccentric orbit planned for the flight.

Officials said radio data from the orbiting vehicle is being analyzed to determine why Ranger I did not separate.

"Primary mission of the flight was to test-operation of the space craft. Since data are being received it is likely that this objective will be achieved in part," they said.

Earlier James D. Burke, Project Range manager, had reported all communication lost. At that time it could not be determined whether any part of the device had gone into orbit.

\$392,000 Painting Stolen

Experts Hint Thief Hid In Gallery With Portrait

LONDON (AP)—Detectives believe that the thief who stole the \$392,000 Goya portrait of the Duke of Wellington hid with it for more than 12 hours in Britain's National Gallery, then walked out with it under a topcoat or in a briefcase.

The 19th century masterpiece was taken from its place in the gallery Monday night. The theft was discovered Tuesday after the gallery opened.

The head and chest portrait of the Iron Duke, Britain's victor at Waterloo, was last seen by the gallery's security guards at 7:40 p.m. A guard noticed it was gone at 10:08 p.m. and reported it, but it was thought it had been moved to another part of the building since the fragile panel on which it was painted was due for repair.

The theft was established after the gallery's staff reported for work Tuesday morning. Detectives combed the big classic-style building on Trafalgar Square for 10 hours. There was no sign of forced entry and no word that significant fingerprints had been found.

Investigators evolved this theory: The thief hid himself inside the gallery just before closing time. From his hiding place he timed the movements of the five night security guards. Then he slipped out when the room was empty,

grabbed the painting and scurried back to his hiding place. When the gallery filled with visitors in the morning, he calmly walked out with his loot.

The painting measured 25½ by 20½ inches, small enough to go into an oversize briefcase or under a voluminous topcoat.

Guards were placed on airfields and ports amid speculation that the theft was the work of the gang believed responsible for a rash of art thefts in France. Only 10 days ago eight Cezanne paintings valued at \$2 million were stolen from the museum at Aix-en-Provence.

The Cezannes were covered by insurance but the Goya was not. A British Treasury spokesman explained that government property is not insured, "whether it is battleships, buildings or pictures."

New Bomb Explosions Protest DeGaulle Plan

PARIS (AP)—Fourteen plastic bombs exploded across Paris early today in a new expression of right-wing opposition to President Charles de Gaulle's liberal Algerian policies.

No one was injured by the blasts, but property damage was heavy from the putty-like plastic on the outside of buildings housing Gaullist politicians, writers and other liberal personalities.

Reds Shut More Gates

Allies Put Tanks, Troops At Sector Border In Berlin

BERLIN (AP)—The three Western Allies pushed tanks and infantry up to the sector border dividing Berlin today in the face of new Communist restrictions on traffic between the East and West parts of the city.

"The commandants are taking the necessary action to insure the security and integrity of the sector border," said a spokesman for the U.S., British and French commandants.

Patton tanks from the U.S. Army appeared at the Friedrichstrasse crossing point, which the East German Communists now insist must be used by all foreigners going into East Berlin.

For the first time since the Reds set up barricades 10 days ago to halt the flow of refugees, the East German regime was telling Americans and other Westerners where they could and could not enter East Berlin. Western officials condemned the restrictions as illegal effrontery.

The East German regime overnight had shut five more gates to East Berlin.

The Western Allies responded within a few hours, sending forces right up to the sector borders. Within minutes the Communists brought up reinforcements on

their side of the wall of barbed wire and concrete they have erected to strangle free movement in the city.

West German border police said they saw armored personnel carriers packed with Communist people's police—who are armed as infantry—move up to positions facing the Allied troops.

The Communists threatened to cut West Berlin's rail links with the West.

West Berlin trade unionists have been picketing the Communist-run elevated stations in West Berlin, and claim they have greatly reduced the number of passengers — and Communist revenue. They have carried such placards as "Don't buy your own barbed wire."

A statement by the Western military commandants on the new restrictions said the three Western commandants "take a most serious view of the effrontery of the East German authorities in warning citizens of West Berlin to keep at a distance of 328 feet from the sector border, a border which the Communists themselves have violated on numerous occasions in the last few days. The commandants are taking the necessary action to insure the security and integrity of the sector border."

Teachers Meet Sept. 5

5,608 Pupils Due In City's Schools

When school bells ring Sept. 6, an estimated 5,608 children will trek to classes in the city's 13 public schools.

The anticipated enrollment is 95 more than were expected for opening day a year ago, but the actual increase is expected to boil down to 55 or 60 by the time the third check on enrollment is made on Sept. 11, Supt. Ralph W. Betts said.

The actual enrollment last year was 5,460 which, if the anticipated increase develops, means the enrollment will be slightly more than 5,500.

THE ANTICIPATED enrollment this year includes 3,948 in elementary buildings, the exact number which was anticipated last year; 1,487 in the two junior highs as compared to 1,468, and 1,073 in the high school as against 987.

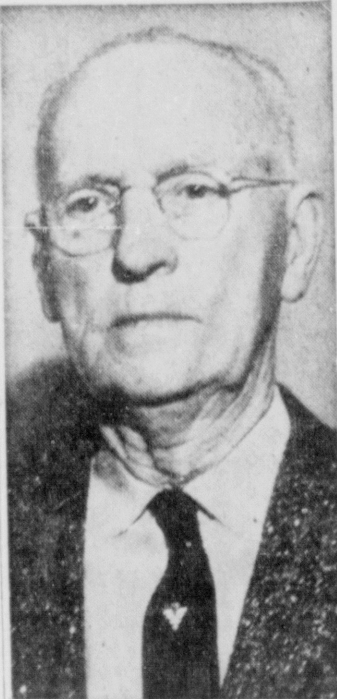

Children enrolling in first grade must be 6 on or before Sept. 15 and must submit proof of birth date. No exceptions will be made to the age requirement, Betts emphasized.

Based on last year's figures, overcrowding may develop in some grades at some buildings, and transfers may be necessary, he warned.

Although no classes will be held, the official opening of school will be on Sept. 5 when teachers' meetings will be held.

A GENERAL teachers' meeting will be held at 9:45 a. m. in the general purpose room at Westgate School. Marking a deviation from the usual opening, Dr. Robert White, vice president of Kent State University, will address the faculty.

A principals' meeting will be

Hancock Ups Budget For School Funds

\$2,919,181 Set For 1961-62 Is \$284,302 Increase

A budget of \$2,919,181.07 for operating the Hancock County School system in 1961-62 was adopted by the County Board of Education Tuesday night in New Cumberland.

The amount represents an increase of \$284,302.48 over last year.

Supt. Robert H. Hall said the big boost in the budget came in instruction and teachers' salaries, increased to \$2,039,000 from \$1,733,000 of last year.

"That represents money for the classrooms, where the students will benefit the most," Supt. Hall said.

Coupled with an increased budget is a large increase in state aid—from \$316,000 last year to \$872,000 this year — due to a West Virginia State Legislature law extending the county school term 10 days. The state provides funds for the longer term.

In addition, the legislature approved another law granting teachers \$20 a month raises for 9½ months work. The board increased teachers salaries \$20 a month for 10 months.

The salary increases total \$354 a year for teachers with bachelor's degrees, and \$365 yearly for those with master's degrees.

Supt. Hall said the rates for the current levy remain the same as last year. They are 45.9 cents for each \$100 assessed valuation in Class I property, 91.8 in Class II, and \$1.83.6 each in Classes III and IV.

Rates on a \$5¼ million bond issue are slightly higher, but will continue to decrease as the County Board retires \$264,000 in bonds each year. The bond rates will drop even further when the as-

Prison Asked For 74 In Plot Against Castro

HAVANA (AP) — The Cuban government has asked prison terms of 10 to 30 years for 74 persons, including two Roman Catholic priests and a number of students, charged with plotting against the regime of Prime Minister Fidel Castro.

At the trial in Santiago the prosecution asked 20 years for priests Reinerio Lebrero Martinez and Jose Luis Rojo Seijas and 30 years for Alberto Muller, a student leader.

All are accused of working against Castro "under the influence of the Church and the (U.S.) Central Intelligence Agency."

Ex-Mayor Collapses In Post Office

Funeral Is Pending For Goodballet's Aide Since 1960

Lee Copenhaver, safety service director and former mayor, died suddenly apparently of a heart attack while at the Post Office this morning. He was 71.

He was pronounced dead at City Hospital at 10:03 a. m. He collapsed while in the Social Security office in the basement.

His sudden passing ended a colorful political career for the former grocer and steelworker who came to East Liverpool as a boy from St. Marys, W. Va., with his parents, the late Mr. and Mrs. Marion Copenhaver.

He resided at 605 Minerva St. A lifelong Democrat, he served as mayor in 1938-39 and was named safety-service director Nov. 6, 1959, when Mayor Bert Goodballet was filling his administration posts before taking office in January 1960.

His appointment followed a Democratic sweep of all but one office in the general election in 1959.

Mr. Copenhaver apparently had been in good health and arrived at the City Hall this morning at his regular time about an hour before going to the Post Office. He had spent a full day on the job Tuesday.

The death left City Hall stunned.

Mayor Goodballet hurried to the hospital but his top aide had already been pronounced dead.

Mr. Copenhaver operated a grocery store for 32 years then was employed for 15 years in the shipping department of the DPC (Turn to COPENHAVER, Page 3)

Dairy Mishap Ruins \$14,000 Of Ice Cream

Loss was set at between \$12,000 and \$14,000 today by the Golden Star Dairy Co. after an ammonia pipe burst in the plant at Webber Way and W. 8th St. late Monday night, ruining 10,000 gallons of ice cream.

John Eiferd, president, said a half-inch pipe burst in a big freezer where packaged ice cream is stored for hardening in various-size containers.

Raw ammonia fumes filled the freezing room and ruined 10,000 gallons of ice cream in pints, quarts, half- gallon and three-gallon containers that were ready for delivery.

Airing - out operations were under way today and the dairy head said ice cream production may resume late today or Thursday morning.

The ruined ice cream was trucked to a dump in six loads.

Eiferd said the concentration of ammonia was so heavy that the fumes killed some grass on one side of the plant. Employees could not enter the freezer for 24 hours because of the dense fumes. Ammonia is used as a refrigerant.

Employees cleaned up the ruined ice cream while using Scott Air-Paks left by city firemen Tuesday. The fumes also was blown out with fans.

Eiferd said the firm will buy ice cream for a few days from the North Pole Ice Cream Co. of Pittsburgh, a "Quality Check" producer as is Golden Star.

The dairy was unable to determine immediately the reason for the break in the cast iron pipe which carries the raw ammonia.

5,608 Pupils Due In School

Junior High. Girls' physical education instructors are extremely hard to locate, chiefly because many school systems are expanding the training into elementary schools.

For the first time in the history of city schools, a school psychologist has been employed. Betts said, explaining it is one of the extra services promised when a tax levy was approved in May 1960.

Robert McNamara of Niles, who has been on the staff of Summit County Schools, will serve both the East Liverpool and Wellsview systems. He will spend 3½ days a week in city schools and 1½ days a week in Wellsview, Betts explained.

BETTS SAID he also would hire a French teacher in the high school. Because of the shortage, Spanish was the only foreign language taught last year.

The class time schedule for this term will be from 8:40 to 11:45 a. m. and 12:48 to 3:50 p. m. for high school students; 9 a. m. to noon and 1:10 to 3:40 p. m. in all elementary buildings except Westgate, and 8:40 to 11:50 a. m. and 1 to 3:59 p. m. at East Junior High.

Classes at Westgate Junior High will begin at 8:25 a. m. and dismiss at 3:01 p. m.

In the elementary school, primary classes will be held from 9 to 11:30 a. m. and 12:30 to 3:25 p. m., and intermediate grades will meet from 9 to 11:15 a. m. and 12:15 to 3:30 p. m.

IN ORDER to provide cafeteria facilities at Westgate, the lunch hour there will not correspond to other schools, the superintendent continued.

Some elementary buildings may have to vary starting and dismissal times in order to adjust to bus schedules so that each bus can make two trips before school and two trips after school, Betts explained.

No classes will be held Oct. 27 because of the East Central Ohio Teachers Association meeting in Canton; Nov. 23-24 for Thanksgiving, and Dec. 21-Jan. 1 inclusive for Christmas.

Classes also will not meet from April 16 to April 23 for Easter vacation and on May 30 for Memorial Day.

THE GRADING periods will be from Sept. 5 to Oct. 13; Oct. 16 to Nov. 22; Nov. 27 to Jan. 19; Jan. 22 to March 2; March 5 to April 13 and April 23 to June 7, a total of 178 days.

A Midland man whose car damaged three other autos in an Aug. 8 crash and a Chester woman whose car struck two girls on a bicycle Thursday were fined by Municipal Judge Samuel Chertoff this morning.

James Ott, 24, of 432 Midland Ave. was fined \$25 and costs for reckless operation, a charge filed after his car struck another on W. 5th St. and bounced against two others and damaged a home. The hearing had been continued twice.

Mrs. Lottine McCoy, 55, of 561 Carolina Ave., Chester, was fined \$25 and costs for improper backing. She was cited after her car backed into a bicycle on which two girls, 7 and 3, were riding, injuring them on Maryland Ave. last Thursday.

Ban On Sale To Reds

The Kennedy administration last week quietly put a virtual stop to the export of nonstrategic goods to Communist-bloc nations.

The action was motivated by two things—a desire to apply a little pressure to the Reds for sealing the border between East and West Germany and pressure from people in this country who have deep suspicions about trade with the Communists. The pressure from the latter had increased with the tensions over Berlin.

The slowdown in trade is reported to be temporary, but it solved an apparent conflict between some Washington administrators. The Commerce Department people who grant the licenses for shipments to Red buyers had issued permits for the export of 800 per cent more goods in the three weeks following President Kennedy's speech on the Berlin situation than they had in the preceding three weeks.

BUT, PARADOXICALLY, Commerce Secretary Hodges said publicly he thinks the voters of the United States take a dim view of the Red bloc trade. He had conferred on the subject with Secretary of State Rusk, and it must be assumed that they agreed in view of the subsequent decision to cut back the movement of goods.

The sale of strategic materials—those that can be used to make war—is banned by law, but nonstrategic materials have been exported to Communist countries for several years.

The trouble with this lies in deciding what is and what is not connected with war. Rail equipment, synthetic rubber, industrial instruments, chemicals, pipe valves and similar products are placed in the nonstrategic category. But it is not hard to imagine how they could be used, directly or indirectly, to make war on the United States.

Especially is this so in view of the fact that when Nikita Khrushchev is not threatening to bury us with his bombs, he is threatening to bury us with his economic and industrial offensives. In the face of that policy, almost anything we agreed to sell him could be useful to him in the long-term cold war.

WORLD TRADE markets are important to the economy of the United States. This country could so isolate itself, out of fear, from that market that it would suffer more than it benefited.

That makes the whole question of whether to sell or not to sell to the Communists more complex, as, indeed, all decisions in the cold war are complex.

But Nikita Khrushchev's goals must be borne in mind. Some people would favor permanent status for the new embargo on Red Trade. Others would settle for a more exact definition of what is strategic and what is nonstrategic.

Deciding what action to take is as much a part of the conflict we are fighting as military and diplomatic decisions.

What Will Reuther Share?

United Auto Workers President Reuther's statement that he will not exclude the Chrysler Corp. from his demand for a profit-sharing contract brings up a couple of interesting questions.

Does it mean the union has decided to accept some responsibility for a deficit?

This is what it would indicate. If a union wants to share in the profits a company makes, it must be assumed that the union also wants to accept a share of the responsibility when the company does not show a profit. That is what investors do when they accept reduced dividends, or sometimes get no dividends at all.

But Mr. Reuther already has answered that question in the negative. He charges that Chrysler's current deficit is the result of incompetent management and declares his union does not intend to "subsidize" incompetence of corporate managers through "substandard wages."

By substandard wages, in this instance, Mr. Reuther presumably means a contract providing some method of paying employees other than sharing profits.

This brings up the second question: Is Mr. Reuther prepared now to guarantee that the auto companies will not be required to subsidize incompetent workers?

While organized labor is quick to take credit for protecting workers' rights of sen-

iority, it never is willing to admit that a byproduct of the same process is the perpetuation on the payroll of some workers who are incompetent, or at least unwilling to apply their competence in full measure to their assigned tasks.

They may not be many among the legions of union members, but they do exist.

The point of all this is that a profit-sharing wage contract, like a four-day week with five days' pay, is economically feasible only when workers are willing to fulfill their proper share of the responsibility for a company's economic health.

Mr. Reuther's demands usually take no cognizance of that fact at all. He only dwells on the rewards he expects.

Army Ambassador

The man who opened the door to the Army for nearly 1,000 area men and women in the last eight years is going to get another look at overseas line of duty.

Sgt. Emuel Bosley, area recruiter, has been assigned to Europe for a three year tour after serving the East Liverpool district for a longer time than any other recruiter.

A veteran of two wars, the sergeant served as an important link between the khaki and civilian life and has become a friend to many here. He will be missed.

No Justice In Diplomacy

It is one of the quirks of modern diplomatic life that the United States was left holding the bag when the United Nations opened debate on the French-Tunisian dispute.

It was a debate which the United States did not want, and the debate stemmed from a fight in which the United States had no part.

But the United States got involved because it felt compelled to withhold condemnation of an ally whose friendship is valued in the NATO alliance, which in turn is vital to the United States military position.

When the debate opened up in the United Nations, however, France was nowhere to be seen. Her delegates boycotted the session because they did not like the going-on.

And there sat the United States' delega-

tion, made the center of the argument by the Russians, who were anxious to divert attention from the goings-on in East Germany. An audience of Afro-Asian nations which had called the debate out of sympathy for Tunisia was ready-made for the Soviet charges.

France's unwillingness to be present for the speeches aggravated the audience more, but the net result was to heap more abuse on the United States.

When Russian delegates staged their famous walkouts from United Nations sessions, they were the ones who suffered. When France staged its walkout this week, the United States bore the brunt of the pain.

It does seem unfair, but that apparently is the price to be paid for world leadership.

The Once Over

Music hath charms to soothe savage beast but is having trouble soothing opera musicians, bankrupt opera corporations, mediators and labor leaders.

Famed Met Opera House, long regarded as immune from labor-management tieups, has a "closed" sign over with a possible substitution of "The Battered Season" for "The Bartered Bride." White House and the secretary of labor have been called into the act. (If the U.S. can't win in East Germany, we hope it can at least get a photo finish in grand opera.)

With Khrushchev, Castro, Ulbrecht and Mikoyan shouting sour notes all over the stage, it would be nice to have some room for Beethoven, Puccini and Wagner.

World of grand opera has always had its ruckuses and wars but up to now the names of labor leaders, federal mediators and cabinet officers didn't figure in the lights with Mozart, Strauss and Verdi.

Prima donna temperaments were on stage but not in arbitration sessions. This could be first time music was muffled and opera words limited to "No," "You're another" and "Or else."

Met musicians demand \$248 a week. That's more than Bizet or Debussy got at times. It seems a lot of dough but musicians say they don't work full year, high cost of living hits them like everybody else and wages of past years wouldn't buy oats for horse that carries Brunnhilde.

To "When do we eat?" oboe players can't say, "I'll bring you some sheet music from Madame Butterfly." Nevertheless public was surprised to learn what they asked per week from a bankrupt organization. To a lot of people \$248 a week was Caruso's salary.

It looks like a dead season for bejeweled diamond-horseshoe, occupants, acrobatic dow-

agers and husbands who always found grand opera one place they could get in some early sleep.

Every effort to end trouble and restore opera season is being made. But U.N., NATO and SEATO can still be appealed to. And Vice President Johnson hasn't been sent to New York yet to strengthen morale of Metropolitan opera lovers.

A **STATUE** of Gen. Grant designed for in front of Riverside Drive tomb is opposed as "too benign, soft and gutless." Well, we haven't seen it, but there are few stories in history as stirring as his Civil War beginning as an obscure drill master in a small town and his rise to the top command of the largest army ever before assembled in the U.S. and to the presidency.

Grant wasn't physically inspiring, but statue of him should suggest the greatness within. He was practically fired from the Army after Mexican War and back home was such a failure that he was called "Useless." Grant's letters offering his services in any capacity in the Civil War went unanswered and, when he journeyed to see Gen. McClellan, he got the "Out to lunch" sign. Yet he went on to the heights.

New York fireman has been suspended for posing as a taxi driver. It would be interesting to know his response to the cries of "Hey, where's the fire?" from slower-going autoists.

President John F. Kennedy in 1957 won the Pulitzer Prize for a book he had written earlier, "Profiles in Courage," that gave biographical sketches of American political leaders of earlier days who had displayed courage in standing up for their convictions against odds.

'My Partner, Here, Handles The Details

Austrians Stand Up To Reds

By Victor Riesel

VIENNA Now I've lived. I have slept in the same bed Khrushchev did. I have taken the same private four-person elevators the chairman did. I have sat in the same conference rooms the Soviet leader did. I have climbed the same grand chancellery staircase—built for Maeterlinck—up which Nikita Sergeyevich puffed. I have talked confidentially with the same government, labor and business leaders who conferred with the Supreme Soviet leader only a few months ago.

Through all this I have learned that all these wise, courageous leaders of a proud little nation believe alike—that N. S. Khrushchev is more worried about what we will do than his raucousness and rocket-rattling make it appear.

Furthermore, it is believed that he is not at all certain what he will do in this crisis over Germany. Otherwise, why did he confer with the supposed anti-party German expert, Viacheslav Mikhailovich Molotov, for three hours before meeting with John Kennedy.

THESE GOOD FOLK here at the edge of the Communist world have learned it is quite possible for any land, even one of only seven million, to disagree with the Goliath and not lose one's dignity or national life.

I have, for example, sat with a truly heroic man, Chancellor Alfons Gorbach, veteran of the grim Dachau concentration camp. He said that only one day earlier, Austria had loaded the last of its enforced reparations trains and sent it on to Moscow.

A Soviet reparations delegation had visited him to say goodbye. But one of the first matters they raised was Berlin. Did the chancellor believe we would stand firm? Over and over they asked his opinion.

I don't know what he finally told them—but I do know that almost everybody in Europe thinks we won't and says we have no guts.

The chancellor would not tell me what he said to the Russians. But he did pass on this anecdote.

DURING THE DAYS of the John Kennedy - N. S. Khrushchev talks, the Russian leader visited with Chancellor Gorbach and the Austrian foreign minister. The latter started trying to offer Khrushchev solutions.

Suddenly the chancellor broke in. There can only be one solution, he said, speaking only for himself. Why not have a free vote in all of West Germany, East Germany and Berlin? That would decide just where the German people want to go—and without war.

Khrushchev suddenly, almost violently, changed the subject, shouting, "Not! Not!" to the suggestion of a free vote.

As we talked, the chancellor pointedly recalled another incident. His predecessor, ex-Chancellor Julius Raab, now head of the Austrian Chamber of Commerce, had gone to the Kremlin some years ago to discuss the evacuation of Austria by Soviet troops.

Khrushchev sat alongside a huge bowl of caviar, occasionally munching on the stuff. He kept pressing Mr. Raab harder and harder for a greater ransom—which eventually was settled at \$150 million. Raab stood firm.

Fiercely, Khrushchev pounded the table and shouted something like, "That's the trouble with you capitalists."

Raab, never losing his dignity, though the odds were 200 million Russians to seven million Austrians, said quietly: "Mr. Chairman, there are poor capitalists and rich Communists these days." Khrushchev looked hard at Raab and the caviar. The conversation quieted.

The State Treaty was worked out for the liberation of Austria.

Regularly, the Soviet directors would demand a speed-up in "norms"—production.

Regularly, the workers would say, okay, pay us more.

Regularly, the Russians would say, "no," you'll speed up but no raise in pay. Then the workers' leaders would be sent down to the Russian Commandatura building.

There, the Soviet military commanders would threaten the workers.

FINALLY, the labor men said, okay, send us to Siberia—but if we produce more, we want more pay. Regularly, the workers would be sent home.

Stand up to them, Mr. Benya said to me.

Then he grinned. Back in 1960 the Communists tried to take over Austria as they did Czechoslovakia. Communists seized a central car barn to paralyze traffic. So the 60-year-old Franz Olah, president of the Austrian Federation of Labor, rounded up some 400 anti-Communist workers, and armed them with sticks. They jumped into trucks.

They beat the Commies right out of the transport center. Traffic began moving again. The workers got to their plants. Then, wherever the Communist action squads set up barricades, Mr. Olah's trucks came and hauled them away.

That's one way to beat a revolution. Take away the Commies' barricades. The party has virtually disappeared here.

All you have to do, said Mr. Benya, is to stand up to them. That's all.

Letters To The Editor

We have some unsung philanthropists in our town who should receive recognition.

I refer to those citizens who, knowing that people are worrying about H-bombs and taxes, have kindly provided themselves with numerous barking dogs to take their neighbors' minds from their troubles.

Who can concentrate enough to worry about the democratic Mr. K's plans to spend billions, or even the Russian Mr. K's threats to bomb millions, when some helpful person has a yapping dog in the yard below one's otherwise quiet lawn?

One man who lives near us is especially privileged. Each of his near neighbors has not one, but three, dogs—thus the unfortunate man is serenaded at times by trios and sextets in bass and treble keys, or by solos which can be kept up indefinitely, for thus one dog barks while the five rest ready to "spell" the performer when he tires.

But annoying as are daytime incessant barkers, one at least has the fond hope that they may be bothering the owners who tied them and left them there. Even this hope is denied those of us who are "hounded" by ambulating beagles.

Some people allow their beagle hounds to go baying after rabbits at all hours of day or night. The hounds that haunt us usually hunt in pairs and when they get separated one bellows to the other in a voice that carries for miles, "Where are you?" and the other yelps back in a high pitch, "Hurry up—here are fresh rabbit tracks!" and then they chorus ex-

actly about their find. Exasperating even in the daytime, being aroused by it at 4 o'clock in the morning drives one to futile thoughts of mayhem.

This morning before daylight a pair of hounds raced around and around our house and lot shouting happily to each other. With fiendish cleverness they allowed periods of five or 10 minutes quiet, lulling one almost to sleep with the false belief that they had gone, this silence only to be shattered by another round of baying.

It seemed hopeless to try to sleep so at 5 o'clock I went out with a flashlight and a hastily snatched-up collection of stones and routed the hunters. Even the beauty of the stars which blazed over head didn't soothe my ruffled spirit—perhaps because Sirius the brilliant dog-star was just rising in the east and at that moment the word 'dog' was an anathema to me!

This letter serves no purpose except as that furnished by steam valves—to relieve pressure, but at least some of my fellow sufferers from dog tormentors may enjoy knowing that they are not alone in their misery.

Incidentally, it is not the dogs I dislike, for I have a quiet, well-behaved dog of my own, who is shut up at night, but it is the owners who are too careless or indifferent to remove the conditions that cause their dogs to bark incessantly.

The Berlin Coup

By David Lawrence

Reds Grab Part Of City Without Reprisal

IN EUROPE The Lyndon Johnson visit to West Germany and Berlin is over, and the cheers and the shouting have subsided. It was a good idea for him to make the trip. It gave timely encouragement to the West Berlin populace, which had grown panicky. But the sad, unvarnished truth is that the Western Alliance stands in a dazed, if not frustrated, condition as it becomes clear that the Soviets have in reality seized and virtually annexed a piece of Berlin and apparently have gotten away with their aggression.

The facts are plain to see. Four powers allied together in the last war made an agreement to act as trustees for a conquered territory.

No single trustee had the power to disregard the will of the others or to continue to occupy any territory or govern any of its inhabitants without the express consent of the other allies.

The Soviet Union now has violated its trusteeship. The people of West Berlin were dumbfounded when the three Western powers of the wartime alliance sent a note to Moscow that merely called attention to the violation without seeming to be willing to do anything about it.

That's why the morale of West Berlin's population sank and Vice President Johnson hurried over to the area to cheer them up and to participate in the welcoming of 1,500 additional American troops who came to strengthen the garrison in West Berlin.

But such a small military contingent and the demonstrations of the crowd for the distinguished American visitors have little, if any significance so far as the Communists are concerned.

This is because, for all practical purposes, the Western Allies have already acquiesced in the cutting off of East Berlin, and there is really nothing to negotiate now except the ratification of the Soviet action in annexing the whole East German area through the device of a separate peace treaty.

MOST OF THE VOICES that come from the Western governments, formally and informally, call vaguely for "negotiation" but there seems to be no iron hand behind the words, and the peoples of Europe really don't expect any militancy from the Western governments now.

If the principle involved is of no value, if the Soviets can annex a piece of territory and police it as if it were their own, shutting off access to Western Berlin as

they please, and the Allies continue only to send diplomatic notes of protest, then indeed the Berlin crisis is over for the Russians will be glad to talk for months or years about their concepts of legal rights and postwar agreements.

The psychological impact of what has just happened struck the West Germans quickly, but the true significance of the latest aggression by the Soviets has not yet permeated elsewhere in Western Europe.

For all practical purposes, the crucial moment has passed—the expected agreement now is likely to elicit some paper guarantees of the right of Allied access subject to Soviet whims and variable interpretations.

The world will know that the Soviets have not only perpetuated their occupation but have set up a puppet government in East Germany to harass West Germany and the Western Allies.

ACTUALLY, despite everything President Kennedy has done—the stepping-up of the United States military program, the dispatch of 1,500 more troops to West Berlin, the organizing of our military effort in NATO—the Communist dictatorship in the Kremlin is still doubtful whether the West means business.

Within the last few days, the Moscow government has started in its own way a probing operation.

Newsmen in various Western capitals have been approached. Members of different governments have been interrogated privately by Soviet diplomats at luncheons or dinners.

There has been a concerted effort to find out how resolute the Western Alliance really is.

The skepticism about the Western attitude has resulted from the repeated statements in the American and British press that "Negotiations," in effect, may include concessions and compromises.

If this be true, it is only natural for the Moscow government to continue to press hard toward its goal, and to assume that even tactics of harassment on the corridor between West Berlin and West Germany will not be resisted and that a protracted palaver will be acquiesced in by the West.

What should the West have done? It could have insisted on free access to West Berlin by the East German people and the right of West Berlin residents to go to East Germany at any time, under military protection if necessary.

The West instead is in the position today of having recognized the right of the Soviet government to imprison the East German people and to block the free movement of the East Germans within their own country.

Rusk Has No Shine

By James Marlow

WASHINGTON

There are no vivid colors in the picture of Dean Rusk after watching him, reading him, and listening to him for seven months as secretary of state.

He has averaged one news conference a month in the State Department since taking office in January. The seventh was Tuesday. It was pretty dull, like those which went before.

This doesn't mean he is personally dull. But in dealing with press and public he has no shine.

He is a friendly, genial man, not aggressive, and certainly not belligerent. He is extremely articulate in the sense of speaking precisely at the very moment he is busy refraining from saying anything either very new or positive.

His news conference highlight was his statement that the big powers will negotiate with Russia on Berlin. But he had already

said that last Sunday in a TV interview.

That was hardly news even on Sunday since he had already said pretty much the same Aug. 11 after returning from a foreign ministers meeting in Paris and a week before that, on Aug. 4, when he arrived in Paris for the meeting.

In short, he is not apt to put his foot in his mouth talking too much. If there is hazard in what he says it is that he will say too little instead of too much.

Thus he gives the impression of being more a foreign policy technician than a spokesman, more a pilot than a captain.

This leads to a conclusion which seemed apparent from the time Rusk took on this job where some of his predecessors had been very dominant characters, like Secretaries of State John Foster Dulles and Dean Acheson.

It suits Rusk fine to let President Kennedy make the big pronouncements and be the captain in practice as well as in fact.

Mr. and Mrs. Charles Martin and Charles Hollinger Jr. of Montana Ave., Chester, left for a vacation in Canada.

TEN YEARS AGO—A missing collie dog that caused much consternation in the John K. Oldstad home on the Congo Rd., near Newell, was recovered just a few hours after The Review published

ed the story of his disappearance. Rural sections of Columbiana County had a chilly 39-degree temperature. L. H. Copeland, weather observer at Millport, reported.

Past councilor's jewels were presented Mrs. Harriet Carragher by the Odd Fellows Temple.

Karen Eells' Health Essay Wins

Miss Karen Eells, 14, daughter of Mr. and Mrs. Byron Eells of Sunset Dr., won the annual Dr. Robert M. Dunlap health essay contest and is shown receiving the trophy at the Junior Fair program Tuesday afternoon at the Columbiana County Fair at Lisbon. She also received a check for \$25.

Left to right are Jim Hamilton, third-place winner; Miss Eells, Atty. Howard M. Cole, president of the County Board of Health, and Jacqueline Yacher, second-place winner.

Miss Yacher, 14, daughter of Mr. and Mrs. Joseph Yacher, of Leetonia R. D. 2 attends New Waterford School, and Hamilton, 13, with Miss Eells will be freshmen at Beaver Local High School, which will retain the trophy for a year. Hamilton is the son of Mrs. Naomi Hamilton of East Liverpool R. D. 2. Miss Yacher received \$15 and Hamilton \$5.

Miss Eells' winning essay, "The Health Department," follows:

"One of the least known, but most important offices in the county government, is the health department, which safeguards the health of all residents in the general health district.

"The general health district takes in all parts of the county except the cities of East Liverpool, Salem, Wellsville and East Palestine, which operate their own health departments.

"The department aids us in many ways through a five-member Board of Health and a skilled staff. The staff consists of a health commissioner, a plumbing inspector, a sanitarian, a nurse and two clerks, all of whom have an important and vital duty to fulfill.

"The department has four divisions — administration, nursing, sanitation and vital statistics.

"The deputy registrar of vital statistics receives and files copies of all births and deaths occurring in the health district. The originals are forwarded to the State Bureau of Vital Statistics in Columbus, where they become a part of a microfilm record.

"Anyone born in the health district from 1908 until the present can secure a copy of a birth certificate for \$1 fee from the department, or a copy of any death certificate filed with the department.

"The sanitation and plumbing division supervises installation of septic tanks and privies for which permits are required, and also makes an annual survey and frequent inspections of restaurants, cafes, school cafeterias and other public institutions where food is served.

"If you are in doubt as to the purity of your water, the health department will come to your aid. For a nominal fee of \$1, the department will analyze your water.

"Complaints about health hazards, ranging from unsanitary dumping of garbage to septic tanks emptying into open sewers, may be referred to the department. Inspectors will investigate and take the necessary steps to correct the complaint.

"The department's progressive school program includes physical examinations, tuberculosis, sight and hearing tests, immunizations and vaccinations of students, and examination of bus drivers.

"One of the most important things we can do as students to help the department help us is to see that our classrooms and restrooms are as clean as possible. We can practice cleanliness daily in our personal lives.

"Above all, each of us should inform our parents and friends about the services offered by the health department, and the need for more money to carry out these and other needed services."

How Can I?

By ANNE ASHLEY

Q. How can I remove petroleum jelly stains from goods?

A. The stains should be removed from clothing or bedding before it is laundered. This may be done by saturating the stains with turpentine and letting it stand for at least half an hour before washing.

Reception For Teachers To Open Autumn Events

Following a summer lull, the Chamber of Commerce and the East Liverpool Retail Merchants Association are preparing to swing into a busy fall program.

The first event will be the public education committee's fourth annual reception for new teachers in the East Liverpool and Beaver Local school systems.

The East Liverpool Teachers Association is co-operating with the Chamber's committee in arranging the event which will begin with a coffee hour following the city teachers' general meeting Sept. 5 at 9:45 a. m. at Westgate School.

Following the meeting, some 30 new teachers in the two districts will be taken on a tour of the city and will be guests of the Chamber at lunch.

Edwin Maloney is chairman and H. J. Kjellman, vice chairman, of the education committee.

Sept. 12 will be a busy day for Chamber members with the Retail Merchants Association holding its first fall meeting that morning in the Chamber offices. Ralph Finley, chairman, will preside.

Fall activities will be discussed and reports will be submitted by the promotion and downtown improvement committees. A plan to purchase Christmas street decorations also will be considered.

The monthly meeting of the Chamber's Board of Trustees will

be held that night following a dinner at the Travelers Hotel at 6 to which committee chairmen will be invited. Alvin T. Babb, president, will preside.

The joint meeting will be to review the Chamber's activities and make future plans, and participate in a discussion on Chamber leadership. The discussion will be led by Richard L. Bailey, U. S. Chamber district manager in this area.

The Chamber's first economic discussion group will be started after mid-September under the business relations committee headed by Charles Taylor and S. C. Porter Jr.

About 20 members are expected to participate in the first program which will continue for nine weeks, meeting two mornings a week from 7 to 8:30 a. m.

School Supt. Ralph W. Betts will lead the study program prepared by the U. S. Chamber for "developing business leadership."

Other groups are expected to be formed after the course is started.

Meanwhile, the safety committee headed by H. Judson English has started plans to promote annual Fire Prevention Week in October and work with the Columbiana County Motor Club in its school safety and traffic safety program and co-operate with the countywide industrial safety committee.

Jury's Selection Begins In First Riders Plea Trial

JACKSON, Miss. (AP) — Attorneys begin selecting a jury today for the first "Freedom Rider" appeal trial in Hinds County Court in the wake of an overruled defense move to toss out the jury list.

Henry Thomas, 19, Negro student at Howard University, Washington, D.C., appealed his city court conviction on breach of peace charges.

He arrived in Jackson May 24 in the second of two busloads from Montgomery, Ala., the first wave of the riders to move into Mississippi. A city judge fined him \$200 and suspended a 60-day jail sentence after police arrested him for refusing to leave a segregated waiting room in a bus depot.

County Judge Russel Moore

overruled a motion to quash the venire Tuesday. He said the defense failed to prove discrimination in selecting jurors.

Several attorneys testified Negroes were called to serve on petit juries, Moore said, but that most of them were excused, challenged or dismissed regardless of the attorneys.

The judge said several Negroes "testified they had not been called to serve on a jury. The court does not find this to be uncommon among the Caucasian race."

Death Benefits Up

NEW YORK (AP)—Ohio families received \$108,600,000 in life insurance death benefits in the first half of 1961, the Institute of Life Insurance reported today. This is \$6,616,000 more than in the corresponding period last year, and \$55,076,000 more than in the corresponding period 10 years ago, the Institute said.

Mortar Groups Take Spotlight In Ohio's 37th

CAMP GRAYLING, Mich. (AP) —Mortar platoons in the 37th Infantry Division took the spotlight Tuesday as the Ohio division headed into the final stretch of summer camp.

While the infantrymen concentrated on rifle assault tests, the mortar crews faced problems of their own.

The platoons, part of the combat support companies, are given an unfamiliar area, move in, survey the terrain and target areas, then set up to fire.

The action is graded and timed by instructors. After a critique on

the initial setting-up stage, the platoons are moved to previously surveyed firing sites and begin dropping live rounds on distant targets.

The mortar platoon tests will continue throughout the week.

Tuesday the Grayling Chamber of Commerce honored Spec. 4 Paul Slaughter of Mount Vernon for his outstanding public information

program for his unit, Headquarters Co. of the 537th Transportation Battalion.

Slaughter, in civilian life a newsman for the Mount Vernon News, was guest of honor at a luncheon and was presented a mounted bow and arrow set with an engraved plaque.

It was the second annual award by the Grayling Chamber.

Rotary Hears Dr. Smart

Minister Asserts World Must Adjust To Changes

"The 21st Century can be a wonderful century if we have the character to make it such; if not, God alone is the only one that can help us," Dr. W. J. Smart of Westmoreland, England, told the Rotary Club at its meeting Tuesday in the Travelers Hotel.

The former pastor of the Irondale and Hammondville Methodist Churches, Dr. Smart declared the world must adapt to rapid changes if civilization is to continue its high standards into the next 100 years.

"We have the highest standard of living in the world here, but don't let us be fooled into thinking that it will always be like this and put to wrong use the secrets of today," Dr. Smart said in citing the rise and fall of the great Egyptian, Grecian and Roman empires of the past.

The English author and lecturer warned against "assuming" that the next century will be greater than the present, which he called "a century of transition" with great advancements in many fields.

"If progress is to continue, we must study nature's laws; knowledge should be acquired and shared by all nations," he said.

"If we are going to preserve the fruits of the past for benefit of the future, we must be people of character, not theories, but men of character," Dr. Smart declared.

"We are in an age of tremendous knowledge. The next century can be a wonderful century if we have the character to make it such. If not, God alone is the only one that can help us," he declared.

Also commenting on present world strife in his talk on "The Price of Progress," Dr. Smart voiced an opinion that "There will be no showdown over Berlin."

"I don't think Mr. K wants to be involved in a war," he said in referring to the Russian premier.

"War could ruin his economic plans," Dr. Smart continued.

"Nothing would serve his purpose better than to drive a wedge between the English speaking people of American and Britain."

He asserted that "there should be a show of solidarity" to face the threats.

Dr. Smart was introduced by Dr. C. M. Mayberry, program chairman in the absence of Don Schreckengost. A. L. Wardeska, Irondale postmaster, was a guest. Sidney C. Porter Jr., vice president, presided.

Sfc. Bosley, Army Recruiter, Assigned To Duty In Europe

Sfc. Emuel Bosley, Army recruiter here for eight years, has received orders to report to Ft. Dix, N. J., Sept. 19 for duty in Europe. His wife, Mrs. Dorothy Bosley, will remain here for the rest of the year. They reside on N. Surrey Rd., Fisher Park. He is presently on furlough.

Sgt. Bosley, who estimated he has recruited nearly 1,000 district youths here, is considered the "dean," having served in the city longer than any other recruiter of any branch of the service. He has been in the Army 17 years.

He came here from Camp Breckinridge, Ky., where he was a machinegun instructor, and served in both World War II and in the Korean conflict. His World War II tours included the Aleutians and in Germany for the final year of the war.

He will be eligible for retirement after his three-year tour in Europe.

Nehru Indicates Reds Right In Traffic Issue

NEW DELHI, India (AP) — Prime Minister Nehru indicated today he believes the Communists have the right to control movements between West Berlin and East Berlin and between West Germany and Berlin.

Winding up a foreign affairs debate in Parliament, Nehru asserted that Western access to Berlin is "not a right but a concession by the Soviets." German occupation zones only granted the Allies the right to occupy Berlin, and free access between the Western zones and Berlin was granted by the Soviets a year later.

New Violence Erupts In Troubled Italy Spot

BOLZANO, Italy (AP) — Saboteurs dynamited an electric pylon Tuesday night in Italy's troubled Alto Adige (South Tyrol), then fired machinegun bursts for 15 minutes at investigating troops and police.

The troops and police returned the fire, but apparently no one was hit and the terrorists escaped in the dark. The area, the Val Passer near Ponte Clara, is mostly thick mountain forest.

Another group of terrorists fired shots at a power depot near Appiano but there was no damage.

Pennsylvanians Face Hearings At Chester

A Midland man, cited for driving while drunk, and a Brownsville woman charged with hazardous driving, are slated for hearings Saturday before Mayor Ray Collins of Chester.

Rudy Polinski, arrested Tuesday by Police Chief Harold Davis on Virginia Ave. for drunken driving, posted a \$128 bond.

Ruth Neal posted a \$15.50 bond yesterday afternoon after she was cited on Carolina Ave. at 2nd St. when her 1961 auto hit a parked car owned by Kenneth Sane of Moundsville. Damage was estimated at \$400.

Salem Firm Low Bidder For Ballots

The Dodge Publishing Co. of Salem was the apparent low bidder on providing ballots for the Nov. 7 election Frank R. O'Hanlon, clerk of the Columbiana County Board of Elections, said today.

The Dodge firm, one of two bidders whose offers were opened Tuesday by the board, set a consolidated price of \$9,053.29 for printing the election ballots.

Lloyd H. Rhodes of Wellsville, operator of the Wellsville Publishing Co., submitted a bid of \$9,541.08.

Dodge previously filed a bid of \$10,226 for the ballot printing, but the board rejected its lone proposal early this month.

O'Hanlon said the Dodge bid was being checked this morning, and the firm probably will be granted the contract. He said the board trimmed its requirements somewhat, and the prices were cut also.

In other action, the board authorized O'Hanlon to obtain needed equipment for 13 new precincts which the board recently authorized to meet changes in population in the county. Such equip-

ment will include booths, tables and ballot boxes.

Plans were discussed for opening three branch registration offices for voter registration in East Liverpool, for which the deadline will be Sept. 27.

The branch offices, to supplement the registration at the main office and make registration more convenient, will be located in the East End, North Side and Pleasant Heights.

It was indicated the sites will be at the Louis-James Store of Mulberry St., North Side Fire Station and Pleasant Heights School, but arrangements must be made to obtain the locations.

Hours will be 11 a. m. to 3 p. m. and 5 to 10.

The board also authorized assignment of assistant clerks in the main office to provide for registration of disabled voters in hospitals and nursing homes.

Some minor revision of precinct borders in Butler Township, requested by voters, was approved.

The board still is awaiting a ruling from Prosecutor G. William Brokaw concerning the status of candidates filed for school board posts in Franklin Local and Southern Local districts.

A merger of the two districts and appointment of a new board for the consolidation was approved by the county Board of Education earlier this month, to take effect Sept. 15 unless delayed by legal action.

O'Hanlon said the printing of ballots for school board posts in the two districts will be delayed until the matter is clarified.

New Bowling Unit Set For Calcutta Site

The Ohio Industrial Commission Tuesday approved plans for a modern 16-lane bowling alley to be developed along Route 170 between Calcutta and Route 30, Larry Black of Glenmoor, operator of the proposed bowling center, reported today.

Black said he plans to remodel and make additions to the former Boyd Lumber Co. building which he recently purchased, along with two acres of ground.

Black, who operated the Sky View Drive-In Theater up until 1½ years ago, said the new bowling center, to be called "Tri-State Lanes," will feature all automatic equipment, tele-scores, a modern seating arrangement, snack bar and well-equipped nursery.

The present 60-x-98-foot concrete building will be remodeled and enlarged to 135-x-98 feet, he said. The contract will be handled by the Black Construction Co., which he also operates.

The lumber firm is constructing a new building at Glenmoor.

Another Strike Negotiation Set

EAST PALESTINE — Another meeting between management of the Kenmar Manufacturing Co. and striking production workers with a federal mediator is scheduled Monday, following an orientation session Tuesday at New Waterford.

Carl Duessing of Akron, U. S. Mediation Service aide, met for almost two hours yesterday with both sides to obtain details and opinions of the issues involved.

Both management and representatives of the United Construction Workers agreed to meet again next Monday morning at 10 at the New Waterford Bank.

A spokesman said there was no actual progress in negotiations made yesterday because the time was spent in briefing the mediator.

Some 126 production workers have been on strike since Aug. 22 when the contract with the furniture company expired. The firm is seeking a cut in wages to meet competition from other firms.

Soviet Patrol Seizes 12 Jap Fishing Boats

TOKYO (AP) — Soviet patrol boats seized 12 Japanese fishing boats off the east coast of Japan's northernmost island of Hokkaido today, the Maritime Safety Agency reported.

The agency said three speedy Russian boats dashed into a fleet of about 250 fishing craft operating near the Russian-held Kurile Islands and captured 12 of them.

Rocket Fuel Engineer First To Swim Lake Michigan Tip

MICHIGAN CITY, Ind. (AP) — Ted Erikson, 33, a rocket fuels engineer whose hobby is swimming, was pulled out of the choppy, rain-splashed waters of Lake Michigan Tuesday night after completing a grueling swim of 36 hours and 37 minutes from Chicago.

Erikson, the first person ever to swim across the southern tip of Lake Michigan, was cheered by a crowd of several thousand who had waited in a heavy rain.

Erikson, 5-11, 210 pounds, had covered some 40 miles although the official distance from Chicago to the finish line is 36½ miles.

Married and the father of two, Erikson wanted to go home—and take a shower. Instead, he was taken to a hospital where he was given oxygen and a sedative for sleep. He was reported in excellent condition.

"I don't want to go to the hospital," he had told his wife, Loretta who had coached him from a boat during the long swim. "I want to go home."

"I thought I was going to get a shower," he said, adding he felt fine—just a little sticky from the grease smeared on his body to help insulate him from the cold water.

Erikson and five other swimmers, including two women, started the fifth annual Lake Michigan swim challenge at 8 a. m. Monday from Chicago's Burnham Park. One by one, the other five dropped out.

average American. Part of the problem is raising and packaging the food.

Half of the Soviet population is engaged in food production. Canning and freezing are 30 years behind U. S. standards. Lack of refrigeration leads to use of fermented milk, and to half of all the meat being made into sausage.

New U. S. steps in the space race, the big heart of a hummingbird, the heavy starch of the Soviet diet are subjects for science at work:

The Pace Quickens In the wake of new Soviet space victories, the U. S. move to match Soviet rocket power grinds forward. Recent developments:

The first Saturn booster, a cluster of eight rocket engines with 1½ million pounds of thrust, arrived last week at Cape Canaveral. First flight tests may come in October for this rocket designed to put a three-man spaceship into orbit around the earth.

A new single rocket engine that matches Saturn's power is in the works at Huntsville, Ala. U. S. scientists expect to bind several of these mammoths together in a Nova rocket to carry man to the moon and back.

Contracts were announced to study new rockets, using solid instead of liquid fuels, for other huge rockets of the Nova class. All of these new developments involve rockets at least 1½ to 12 times as powerful as the estimated strength of the Soviet man-carrying rocket.

Hummingbirds Hearts The tiny hummingbird has plenty of heart. In fact for its body weight it probably has more heart than any other bird.

The heart of the hummingbird weighs up to 3 per cent as much as its total body, reports Dr. Frank A. Hartman of Ohio State University.

"The hummingbird is the acrobat among birds—none equal him in speedy maneuverability," he says. And the heart is most important of all the muscles. While a small heart limits activity, a large one means more staying power.

Soviet Diet The Soviet daily diet averages 3,000 calories, U. S. nutritionists say. But it could use more protein and fat from meat and oils.

Fifty-six per cent of the diet is made up of potatoes and grains. 15 per cent by animal protein and 10 per cent each by sugar and by fat and oils. Soviet citizens eat six times as much bread as the

U. S. Rejects Blame Charge On Cholera

WASHINGTON (AP) — The State Department Tuesday emphatically rejected Red Chinese accusations that the United States was to blame for the Cholera epidemic on the Chinese mainland.

Press officer Joseph W. Reap said the charge is "but another of a long series of Chinese Communist hoaxes, cruelly and inhumanly playing upon the sufferings and fears of people under their control for crass propaganda purposes."

Gobel, O'Malley Sell Share In TV Series

HOLLYWOOD (AP) — Television comic George Gobel and partner David O'Malley Tuesday sold their 50 per cent share in the TV series, "Leave It to Beaver," for \$1 million.

Revue Productions, the purchaser, now owns the ABC-TV series

outright. "Beaver" recently completed its fourth year.

Gobel and O'Malley, doing business as Gomallco Productions, said they decided to sell because the comic now is busy preparing for a Broadway show.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: My 23-year-old daughter is so gorgeous that it may ruin her life. Ever since she was a little tot she has had no girl friends. The youngsters her age were all jealous of her because she got so much attention from adults. As she grew older her troubles increased. The girls at school considered her stiff competition and they left her out of everything. Now she is so beautiful that she has a problem with men. They are always fighting over her. Wherever she goes, heads turn and her escort has to defend her or hit somebody for making a fresh remark. Please tell me what can be done about this unusual problem. I'll bet you've never had one like it.—CURSED OR BLESSED?

Dear C or B: The girl's problem isn't her beauty — it's her mother. Your emphasis on her good looks all these years has given her a preposterous notion of how the world works. Your daughter's lack of friends is in no way related to her looks. She simply never learned to stop thinking of herself long enough to think about others. Her inability to interest people was rooted in her inability to show interest in them. Beauty is a problem only when the person who has it uses it as a whip or a crutch. And then it becomes a curse instead of a blessing.

Post Mortem
Dear Ann: I attended a funeral the other day and there was plenty of conversation about what went on there. I'd like your opinion.

The man who was buried had been married twice. His ex-wife sat in the second row, directly behind the widow. She brought her mother along and the two of them made more noise than the widow and HER mother.

What I'd like to know is this: Is it considered proper for an ex-wife to attend the funeral of her former husband? My husband has an ex-wife running around loose and if anything happened to him I wouldn't want her around.—THE MRS.

Dear Mrs.: It is perfectly proper for an ex-wife to attend the funeral of her former husband if she wishes. She should, of course, stay well in the background.

The only way to keep unwanted people away is to have a private funeral, which means only those who have been invited may attend.

Look At The Record

Dear Ann: I'm going with a man who keeps me in a constant state of turmoil. I never know for sure if he's going to show up for a date. He has the dandiest list of alibis you ever heard. Every one is airtight and waterproof. He can always produce witnesses.

In the meantime he never has a dime on him, although he has a wonderful job and has been making good money for years. I have to keep up his car payments and also his insurance. He has postponed our wedding twice and I'm afraid to set a third date. I love him and I need some help.—DIZZY DOTTIE

Dear Dizzy: If you want to marry this man you must have bats in the attic, Sister. His record speaks for itself. Are you foolish enough to think that marriage will change him from an irresponsible creep into a home-loving guy? Get with it!

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Judge Airs Arguments On Locals' Legal Status

CINCINNATI (AP) — Common Pleas Court Judge Charles S. Bell was to hear arguments by lawyers today on the legal status of four Cincinnati locals that voted last week to leave the Teamsters Union.

Teamsters attorney David Previant Tuesday asked for a temporary order to tie up the locals' assets over to the International.

The four locals, with about 4,000 members, have so far defied attempts by the International to regain control. Their officers have refused to yield to Harrold Gibbons, whom Teamsters President James R. Hoffa appointed trustee for the rebel locals.

Previant asked for a restrainer without hearing, but Judge Bell refused.

In filing the suit, the Teamsters contend that according to the International's constitution, a local has no right to secede if at least seven members vote to stay with the union. Even if the rest of the members want to leave the union, the Teamsters say, the local's assets must remain with the international.

Meanwhile there seemed but little chance that AFL-CIO President George Meany would come here to debate Hoffa.

Hoffa Tuesday challenged Meany

to the debate, but a spokesman for Meany said the AFL - CIO chief would not come.

The debate is to take place Sunday night at Cincinnati. The Teamsters have retained a downtown auditorium, the Music Hall, for this, but rebel leader James Luken is balking at going there.

Luken and William Kircher, local AFL-CIO director, have agreed to debate Hoff and Ohio Teamsters boss William Presser—but only on neutral territory, such as a television studio. Luken has charged that the Teamsters hired Music Hall so Hoffa could pack the audience with his supporters.

Luken is president of a 2,200-member dairy drivers local and an old foe of Hoffa.

Three Cincinnati television stations have offered to air the debate.

Gibbons, speaking on Hoffa's behalf, said Tuesday the debate could not be held in a TV studio because there would be no room for rank and file Teamsters to attend.

Three of the four seceding locals—the Milk Drivers, the Beverage Drivers and the Funeral Drivers—have voted to join AFL-CIO. A cab drivers' local is planning to stay independent.

Cooley Given Life Term In Wife Slaying

BAKERSFIELD, Calif. (AP)—Spade Cooley, who parlayed six cents and an old fiddle into fame and fortune as the "king of Western swing," was sentenced to life in prison Tuesday for the brutal murder of his wife.

The unexpected climax of the case followed a dramatic meeting between opposing attorneys and Superior Court Judge William L. Bradshaw while Cooley was preparing to show he was insane April 3 when he beat and stomped his wife, Ella Mae, 37, to death.

The jury which Saturday found Cooley guilty of first-degree murder was to rule first on the insanity plea and then set the penalty if Cooley, born Donnell Clyde 50 years ago in a storm cellar near Pack Saddle Creek, Okla., was judged sane.

The nickname Spade came after the entertainer once drew five spade flushes in a poker game.

After the conference in Judge Bradshaw's chambers, Cooley's attorney, P. Basil Lambros, conferred for more than an hour with his client, who then waived his right to a sanity trial and also waived his right to have the jury set the sentence.

Persons serving life sentences in California normally are eligible for parole after seven years.

Cooley said he hit his wife after she had told him she was joining a free love cult and told him of the initiation rites.

Cooley showed up at the gate of Republic Pictures in 1934 with a fiddle and six cents. Cowboy star Roy Rogers got him a job, and Spade became Roy's stand-in.

Later the Scotch-Irish-Cherokee Indian fiddler built his own band and became famous as a radio star. He also wrote songs, including "Shame, Shame on You."

The San Francisco Giants pitching staff turned in 16 shutout during the 1960 season.

Bringing Up A Family

By GARRY C. MEYERS

Producer Fighting TV Violence

In a news dispatch from Washington, D. C., some weeks ago, you probably read in your newspaper that sordid account of alleged greed of two broadcasting companies.

According to this news item, a television producer testified before the Senate subcommittee which was conducting hear-Dr. Garry Meyers

ings on juvenile delinquency that he had been told by two networks to get more sex and violence into his shows. The obvious purpose of such a command was to make those shows pull a better listening rating and thus to net more revenue from advertisers — no matter about the ill effect on the children of our nation, even on adults.

THE PRODUCER so testifying was Mr. Ivan Tors of Ziv United Artists. He read to the subcommittee a letter he said he had received from Jack Ballard, an NBC official, which said in part, "New York has indicated to me recently their concern over the absence of sex in the following outline..."

Mr. Tors also testified that officials of CBS had informed him that more "youth and crime" might improve the ratings of "The Aquanauts", one of his shows.

According to Mr. Tors' testimony, he had devised this show as a wholesome program of underwater exploits, but CBS had so distorted his plot that he insisted on a contract clause allowing him to pull out of production anything that might "adversely influence youth". This program later was retitled "Malibu Run" and assigned to another producer.

FURTHERMORE, Mr. Tors testified that he had planned to have "Man and the Challenge" prepare persons for survival in such situations as space flight, but that an executive of an advertising agency told him it would never win prime television time unless there was "a great deal of sex and violence" in the show.

Sen. Thomas J. Dodd, chairman of the subcommittee, applauded Mr. Tors for testifying: "I'm well aware of the risk you are taking. I hope there will be no reprisals. I think the public owes you a debt of gratitude."

Certainly parents who care about what their children are exposed to on TV should feel grateful to Mr. Tors.

A reprint of mine, "Our Children, TV and the Church," may be had by sending a self-addressed stamped envelope to me in care of this newspaper.

THE REVIEW

Europe Trip Told Kiwanis

Dr. Howard Matthew, Chester dentist, related experiences on a recent trip to Europe at a meeting of the Chester Kiwanis Club Tuesday night at the City Hall auditorium.

He described visiting seven countries in a seven-week trip. He said the German people are very friendly, and have some of the finest farms he has ever seen, although they still use old methods of agriculture.

The dentist said the Alps are "beyond description," and declared the poverty in Spain and Portugal "makes your heart sick."

"It was good to get back to the people you love and the country you love," he concluded.

Paul Finley, general chairman for the annual pancake supper Nov. 1-2, announced committees. Proceeds will be used for youth projects.

Second nomination of officers was held for election next Tuesday. Dr. Frank Bragg, Chester dentist, was a guest.

A family cookout will be held at the next meeting at City Park.

Czech Teachers Told Red Doctrine's First

PRAGUE (AP) — Czechoslovakia's top schoolman told his country's teachers Tuesday their main task is putting across Communist doctrine, not the three R's.

In an address to the annual National Teachers' Conference, Education Minister F. Kahuda declared that "development of Communist education continues to remain the paramount task of the schools," the Czech news agency Ceteka reported.

Man Goes To Prison

Hear About Stacked Decks

Senate's Racket Probers Eye Hoodlums' Trick

By G. MILTON KELLY

WASHINGTON (AP) — Senate

racket probers, having heard and seen how gamblers stack the deck in their favor with rigged equipment and crooked officials, explore today the ways hoodlums cheat on taxes and prey on race tracks.

Sen. John L. McClellan, D-Ark., chairman of the Senate Investigations subcommittee, called for testimony from Internal Revenue Commissioner Mortimer E. Caplin and Angelo Rosetti, a Boston race wire operator.

The subcommittee described Rosetti as the operator of Sports Day Weekly, a race wire service.

In Tuesday's first day of hearings, the senators witnessed some startling demonstrations of paraphernalia used by crooked gamblers in illicit card and dice rooms.

They also heard how off-the-track bookmakers try to get the jump on their bettors by constantly attempting to get reports of horse race results well before any customer can get the word. The fast report gives the bookie a dual advantage: a chance to accept more bets on horses that lost and a cast iron assurance no patron can bet a known winner.

The subcommittee, heard an estimate that the total play handled by illegal handbooks may be \$50 billion a year, from which

the bookies' profit would be about \$5.5 billion.

John Scarne, who described himself as "somewhat of an expert" in protecting the public from being fleeced by gamblers, gave the estimates and charged that \$750 million of this money is spent each year to "corrupt law enforcement officers."

He said he is employed by the Hilton hotel chain and the governments of Panama and Puerto Rico.

Scarne described elaborate tricks used to introduce marked cards into poker and other card games. Of every five poker games where the stakes are as high as \$10, he said, at least one of them has a professional cheat among the players. He estimated that 40,000 marked decks are in use in the country.

Paul P. Karnov, a Chicago manufacturer, testified his firm sells loaded dice, marked cards, rose-colored contact lenses with which "to read the backs" of marked cards, and trick mirrors used by gamblers to see the hands of other card players. He said he is president of the H. E. Mason Co., also known as the K.C. Card Co.

Tiny cocktail onions, when a few are leftover, are fine to add to stewed tomatoes or green peas.

Vacations As You Grow Older

Rehearsal To Retirement

By HAL BOYLE
SPARTA, N.J. (AP)—Every vacation as you grow older is a rehearsal to retirement.

How to retire gracefully and enjoyably is one of the major problems more and more people face as living longer becomes a mass human victory as well as an individual triumph.

What do most people really want most to perform, yesterday, today or tomorrow?

How does one learn the art of letting go?

During a recent week, when the world and its purpose seemed to be balanced precariously on a fulcrum called Berlin, I took a vacation from the crises that have been our mortal bread and dread for 16 years—ever since the end of World War II.

The idea occurred to me that giving up isn't a necessary virtue and that trying to live a long and planned life is a kind of pleasurable duty.

Here I am in a 150-year-old farmhouse about 50 miles from Manhattan, and it might as well be a thousand or ten thousand miles away from the doubtful reality of human fear, I thought.

It is hot in the city, but it is cool here. I search the yard to pluck from the tomb of dead trees the kindling lumber of bright flame to illustrate the yearning that marches in every fireplace.

It is only a week's vacation to me, but I am haunted by a desire to appreciate all the life that throbbed this way before me.

Today I can reach up and touch the eadry low ceilings, and feel a distance in my reach I cannot summon. Years and years before I was born, a minister now dead married here the local couples, before this fireplace.

I go among this place and pick up for a new fire the rotting remnants of trees that saw these weddings—and survived most of them—and I wonder what happened to the honeymoons of the people and the reach to the sun of all the separate trees. What a wealth of death life is!

I sit on the porch in an old-fashioned rocking chair weathered to a worminess by earlier men. I complain about being bitten.

"Here," says the hostess, and hands me an insect gun.

This is too much progress for me on a summer's day. I am not interested in mass assassination. Instead I take an old-fashioned fly swatter.

Rocking back and forth, biding my time, I knock off two daylight mosquitoes and seven houseflies without a miss, a local record for an out-of-town fellow my age.

The dusk comes down with a softness unlike thunder. Frogs har-r-r-r-umph from the swamp, the cricket bows a rusty violin, the katydids renew their endless traitorhood: "katy did, katy didn't."

It is time to go in, shivering a little, and light the evening fire.

Every vacation is a rehearsal to retirement, one more stepping stone to eternity. Yet it's nice to be back on the job.

Retired Farmer, 103, Marries Woman, 65

CLINTWOOD, Va. (AP)—Booker Wright, 103, leaned just a little on his cane as he stood before the minister and repeated his marriage vows.

The retired farmer from Virgie, Ky., was married Monday in the Clintwood Baptist church to Elsie Coleman, 65, of Pikeville Ky., the seventh marriage, the bride said, for each.

Asked where they would spend their honeymoon, Wright replied: "She's all the honeymoon I want. We're going home."

Midland Groups Attend Event At Pittsburgh Park

Many Midland groups, including the high school band, Hi - Spot Youth Center members and others, are attending the Festival of Bands today at Kennywood Park at Pittsburgh.

The office at Lincoln High said the band will also march. The band buses left about 9:30 a. m.

Mrs. William Spisak, director of the youth center, said the center sponsored buses will leave the park at 11 p. m.

Mrs. Spisak will be one of three judges during finals of the Teen Princess contest Saturday on Nine Teen Time on television station WSTV of Steubenville. She will meet the candidates during a luncheon at the new Steubenville Country Club.

Drapes were hung Monday at the center's quarters in the Borough Building. The center will also be painted in preparation for its opening Sept. 5 with a "Back-to-School Hop." Stan Scott of WSTV and the "Stereos," a recording group, will provide special entertainment.

Farmer, Old Horse Are Drinking Buddies

VALDOSTA, Ga. (AP) — A South Georgia farmer and his elderly horse are drinking buddies.

Most of the time Samuel M. Weldon, 68, and the horse, Brownie, 27, are working.

But on off-days they head for town five miles away.

After Weldon has downed a beer, he orders another bottle and feeds it to Brownie.

The farmer said that on occasion Brownie has taken him home — stopping for red lights and obeying all traffic regulations.

GAS HEAT

and
save
thousands
of
dollars!

No one's going to hand you a check, but when you heat your home with Gas, you benefit . . . in actual dollar savings . . . over the cost of oil or electric heating.

Electric heating, for instance, costs about 4 times more than heating with Gas. At this ratio, you save, literally, thousands of dollars using Gas heat, in a very few years.

But cost is only one of the many reasons for heating with Gas. Others include:

GAS HEAT is "fresh air" heat. It allows for normal, healthful air changes in your home. You don't have to seal it tight as a thermos bottle to keep costs from soaring.

GAS HEAT enables you to keep all parts of your home, including the basement, comfortable at reasonable cost.

GAS HEAT is clean. The air is filtered to remove dust and pollen before it is heated and circulated through your home.

GAS HEAT requires a minimum of attention. You need to set only one thermostat for whole home comfort. No heat is more dependable . . . none safer . . . than Gas. And with forced air Gas Heat, you already have duct work that converts easily for central air conditioning.

Why be extravagant? Why pay more — to get less? Insist on Gas Heat for your home and save thousands of dollars!

Giants Grab NL Spotlight After Beating Reds, 12-2, 5-3

Tigers Win, Yanks Lose To LA But Hold 2 Game Edge

LA Beaten, Muffs Chance To Pick Up Ground

By ED WILKS
Associated Press Sports Writer

Do the San Francisco Giants have "The Little Miracle of Frisco Bay" in mind as a sequel to "The Little Miracle of Coogan's Bluff" which they staged back in New York 10 years ago?

That off-Broadway success of 1951 had them coming from 13½ games behind on August 11, nailing a tie on the final day of the season and whipping the then Brooklyn Dodgers in a playoff for the National League flag.

At the moment, after slouching in third place, 8½ games from the top on August 11, the Giants suddenly have perked up, winning 9 of 11 and 5 in a row with a sweeping, 12-2 and 5-3 doubleheader success over first-place Cincinnati Tuesday night. That jumped the Giants within 5 games of the Reds, who have lost 3 in a row for the first time in a month.

Half-way between Cincinnati and San Francisco stand the Los Angeles Dodgers, who are 2½ games back of the Reds after losing 5-4 at St. Louis. It was the Dodgers' eighth consecutive defeat—their longest skid since 1948.

Pittsburgh rapped Milwaukee 4-1 and last-place Philadelphia dropped the Chicago Cubs 6-0 behind the one-hit pitching of Art Mahaffey.

Willie Mays, the lone holdover from the Giants' miracle men of 1951, set the pace with five hits in the opener at Cincinnati, one a two-run homer, and then clinched the sweep with his 33rd home run, a two-run shot in the sixth inning of the second game. Willie McCovey belted a pair of solo home runs in the first game as the Giants collected 20 hits, and Orlando Cepeda, who drove in two runs in the opener, socked his 35th home run in the nightcap.

Southpaw Mike McCormick (10-12), the Giants' only loser in their last 14 games, got into the swing with an eight-hit job against the Reds in the opener. Sam Jones (8-7) won the nightcap, but needed Stu Miller's relief when Jerry Lynch hit a three-run homer that broke up Sad Sam's three-hit shutout in the sixth inning. Bob Purkey (14-8) and Ken Johnson (4-2) were the losers.

The Cardinals twice blew leads against the Dodgers, then put it away on a two-out error by Charlie Neal in the ninth inning. The Dodgers had tied it 4-4 in their ninth on singles by Junior Gilliam, Duke Snider and Wally Moon—a trio that figured in all

their scoring. Lindy McDaniel (9-5) was the winner and Dick Farrell (7-6) the loser, both in relief.

A two-run triple by Don Hoak triggered a three-run second inning for the Pirates, who had lost seven in a row to the Braves. Bob Buhl (9-9) was the loser while Joe Gibbon (9-8) won it with relief from Elroy Face.

Mahaffey (8-17), a 23-year-old right-hander who had lost 10 in a

row since June 25, gave up the Cubs' lone hit when Ron Santo singled with one out in the first inning. Ed Bouchee and Billy Williams were the only other

Cubs to reach base, both on walks, in the third and the eighth. The Phils, winning their second in a row after a record 23 consecutive losses, beat Dick Ellsworth (7-8) with a third-inning run on a single by Clay Dalrymple and a double by Tony Taylor.

Trader Out Of Job Again

Finley Gives Lane Boot

KANSAS CITY, Mo. (AP) — Frank Lane, baseball's most talkative figure was bounced out of his job Tuesday as general manager of the Kansas City Athletics by owner Charles O. Finley, who accused Lane of spreading false rumors about the club.

"It's a great relief," Lane told a newsman today. "I knew it was coming."

Finley said one of the rumors Lane started was that the A's, mired in tenth place in the American League, might be shifted to Dallas-Fort Worth as reported in the Kansas City Star last week.

Finley denied he planned to move the club and charged two Star baseball writers, who criticized him, with accepting payola from a former clubowner, the late Arnold Johnson. The newspaper and two writers, sports editor Ernest Mehl and baseball reporter Joe McGuff, denied the charges.

"Lane spread rumors all over the United States and wherever I went and read a newspaper I could see nothing but poison and dirt that he had left behind," Finley said in announcing Lane's dismissal at a news conference in his Chicago insurance office. He appointed Pat Friday, 37, a vice president of the club and an

official in his insurance business, to succeed Lane.

Lane, who came here from the Cleveland Indians, also has served as general manager with the Chicago White Sox and the St. Louis Cardinals. Always a fast-talking free-wheeling trader of baseball players, he had a four year contract. Finley said he would be paid off on the remaining three years at \$50,000 a year.

Lane commented, "It was an absolutely hopeless situation as far as I was concerned. Those who I feel sorry for are the baseball fans of Kansas City for having to put up with such an operation as this."

Lane said he had no immediate plans but that he would very much like to have the job as general manager of the Chicago White Sox if Hank Greenberg vacates the post at the end of the season.

Finley, who bought the club last winter by outbidding a Kansas City group, hired Lane last January and called him the "greatest general manager in the game."

Tuesday night he bitterly described Lane as a failure with the Athletics.

"In my book a general manager is not only a man who can

make a trade over the phone—any damned fool can do that—but he must be able to oversee everything. Lane did not do this and these other responsibilities fell with Friday and myself," Finley said.

Maris Hits 50th; 13 Ahead Of Ruth

By ED WILKS
Associated Press Sports Writer

One home run every 10.09 at-bats will do it.

That's the pace Roger Maris has to keep through the next 30 games to break Babe Ruth's home run record after hitting his 50th Tuesday night as the New York Yankees lost 4-3 at Los Angeles.

With his two-run, sixth-inning shot off right-hander Ken McBride, Maris went 13 games ahead of Ruth's record-60 pace of 1927. The young slugger now needs only 11 more in the Yankees' next 30 games to break the Babe's record within the official limit of 154 team decisions set by Commissioner Ford Frick.

In 125 games this season, including a tie which is counted in the individual records, Roger has been at bat 455 times for an average of 3.7 a game. Assuming he can avoid bases on balls Maris would have 111 at bats in those 30 games, averaging out to one home run every 10.09 at-bats.

His 50 home runs in 455 at-bats figures out at one every 9.1 at-bat. If the figures don't lie, Maris can waste an extra at-bat between home runs the rest of the way.

Teammate Mickey Mantle, who failed to connect as the Angels shaved the Yankees' American League lead over second-place Detroit to two games, has 46 homers. Based on the same projection formula used for Maris, the Mick would have to hit a home run every seven at-bats to get the 15 he needs to top Ruth. So far, Mantle has hit one every 9.2 at-bats.

The Tigers closed in on the Yankees by winning their fifth in a row, 8-1, at Cleveland. Third-place Baltimore lost 3-2 in 10 innings at Kansas City, the Chicago White Sox took over fourth place by beating Minnesota 4-3, and Boston defeated Washington 3-2 in 11 innings.

Maris' home run, a 420-foot drive over the center field fence—the only deep section in cozy Wrigley Field—was his second in

seven games at the Angels' park and ruined a shutout by McBride, who finally won his 10th on the eighth try. Yogi Berra hit a ninth-inning home run for the other Yank run.

The Angels, tying Minnesota for seventh place, ripped into Bill Stafford (10-7) for three runs in the first inning on a leadoff triple by Albie Pearson and consecutive home runs by Lee Thomas and Leon Wagner. Earl Averil tagged reliever Luis Arroyo for a homer in the eighth for the final run.

Detroit also did it with homers, two-run shots by Rocky Colavito, Billy Bruton and Al Kaline that backed a five-hit pitching job by Paul Foytack (8-8). Jim Grant (12-7) was the loser.

run with a sacrifice fly in the seventh inning and then won it for the White Sox when he singled with two out in the ninth against Pedro Ramos (9-15). Don Larson (4-1) was the winner with 5 1-3 innings of four-hit, shutout relief.

Marv Throneberry's two-run pinch homer in the eighth broke up a three-hit shutout for A's starter Norm Bass and gave the Orioles a tie, but Milt Pappas (9-7) wild-pitched the winning run home in the 10th. Bill Fischer (4-2) was the winner in relief.

A two-out walk to Jackie Jensen on a 3-2 pitch with the bases loaded forced in the Red Sox' winner and beat Bennie Daniels (8-7). Mike Fornieles (7-8) was the winning pitcher in relief.

Going For Bad Balls Seen Roger's Problem

LOS ANGELES (AP) — Roger Maris isn't sure whether the pressure is going to rise or fall now that he is within 10 good swings of tying Babe Ruth's 34-year-old home run record.

After hitting No. 50 Tuesday night, the New York outfielder indicated he feels his chief problem in the month ahead is going to be the same one he faced last month and the month before—to show restraint to let the bad pitches go by.

"I think I'm usually pretty good at laying off the bad ones," Maris said. "But I'm just like everyone

else. I have good days and bad days and some days I chase the bad ones.

"I don't know that the pressure is going to get any worse, and I don't know whether I should actually have more confidence because I've hit 50 now."

Roger's 50th was a two-run shot over the centerfield fence in the sixth inning and it put him 13 games ahead of Ruth's record 1927 pace. But neither that drive nor a bases empty homer by Yogi Berra in the ninth was enough to save the Yankees from a 4-3 loss to the Los Angeles Angels.

1st Free Methodist Cops Y-Church Softball Crown

First Free Methodist, finishing the season with an outstanding 17-1 record, clinched the YMCA Church League title Tuesday with a 10-4 victory over second place Calvary Methodist.

The Calvary nine finished with a 15-3 mark. John Clendenning pitched the clincher while Harry Cunningham's two-run homer was the big blow for the winners. Don Wolfe and Bill Wolfe Sr., each collected two hits for Free Methodist.

The league will hold a playoff next week.

Cannon Off To Fast Start With Houston

HOUSTON, Tex. (AP) — Billy Cannon, the all-everything who looked like a flop for a while last season, has found his feet in professional football.

Cannon is off to a start this year that far surpasses his rookie season with the Houston Oilers of the American Football League.

The former Louisiana State All-America has gained almost triple the yardage he gained in the five preseason games of 1960. Houston has played only three exhibition games so far this year.

Great things were expected from the Heisman Trophy winner after he signed with the Oilers for a reported \$100,000 but he became another player.

Cannon has carried the ball 34 times for 223 yards and a 6.6 average in Houston's three exhibition games. In Houston's preseason schedule last year, Cannon carried the ball 29 times for 85 yards—a 2.9-yard average.

CBS And NBC 'Partition' Danny Kaye

The big corporations controlling our television fare have no trouble coexisting with one another. With a little nudging from a sponsor and a big talent agency, those arch rivals NBC and CBS have signed a peace treaty partitioning Danny Kaye.

NBC had scheduled Kaye's 1951 Fox movie, "On the Riviera," to run Oct. 28 in its new "Saturday Night at the Movies" series. When General Motors heard of this, it was highly disturbed, because GM was shelling out \$500,000 to star Kaye in his own TV special on CBS Nov. 6.

The big motor company sent an emissary to NBC to see if the network wouldn't reschedule the Kaye movie to a later date. Since NBC frequently does business with GM on other shows, it did not want to offend a customer. Still, NBC hated to accede to something which helped its rival, CBS.

IT IS HERE that Music Corp. of America, the behemoth talent agency which represents just about everybody in show business, probably entered the negotiations. MCA represents Kaye, too, and to toss a little sop at NBC for its troubles, it was decided that Kaye might as well tape his CBS special in NBC's Burbank studios, with a rental fee naturally being paid to NBC.

By way of explanation for the inquisitive press, it first was decided to say that Kaye was taping his CBS show at NBC because it had better color facilities. The only rub was that Kaye this time is doing his GM special in living black and white.

The official explanation for the CBS show's being done at NBC now is so filled with double-talk it sounds like one of Kaye's show routines.

ANYWAY, NBC has postponed Kaye's "On the Riviera" movie to a Dec. 30 showing, and the movie tentatively announced for the former Oct. 28 showing is appropriately titled "No Business Like Show Business."

It seems the only color we're likely to see over at CBS this season is the red blushes of producers when their shows are canceled. When General Motors asked for color on the coming Kaye show it was told that the network was planning no color shows.

If GM insisted, then it would have to pay the telephone company for reactivating the color transmission.

CBS hasn't the economic stake in color that NBC-RCA has. Also the CBS boys still are burning after all these years over the switchover the FCC pulled after first okaying the CBS "color wheel" system.

JACK PAAR "sneaked" into

Hollywood over the weekend to film his guest shot on the new Joey Bishop show. He wanted no press around but condescended to let an NBC photographer set up a picture of him accepting that \$320 gag check from Joey.

In a couple of weeks, Mr. Paar goes to West Berlin to do three shows and interview Mayor Willy Brandt. When this information reached the ears of one Vine St. diplomat, he sighed with relief and said, "I just knew we'd find some way to settle the Berlin crisis!"

REMEMBER little 14-year-old Leonard Ross, the kid who won all that dough on "Big Surprise" and "\$64,000 Challenge"? Well, he now is 17 and a junior at Reed College, Portland, Ore.

But the big news, says his mother, is that Leonard has been named Oregon's top young Democrat by the Young Democratic Clubs of Oregon.

"He's still interested in the stock market, too," says Mrs. Ross, "and keeps sending his dad advice about stocks."

Stocks were Leonard's category on the quiz shows, if you remember. But how did he get to be a Democrat?

THAT "Person to Person" tape which ran on CBS Aug. 11 with the love-dovey Efrim Zimbalist Jr. and wife Stephanie was done in April 1960.

Wonder if they waited that year and three months before announcing their separation so that the "Person to Person" show wouldn't be scuttled by CBS?

Some of you may think that's ridiculous, but an actor has to think of his career, and don't forget it gave Efrim a chance to be seen on "another network."

WELL, IT'S official! Lawrence Welk has named Norma Zimmer his "Champagne Lady," first gal to hold that title since Alice Lon pulled the cork on the maestro two years ago.

LISBON — Sheriff's deputies Tuesday conveyed Roy Custer Jr., 28, of Greenford to the State Penitentiary at Columbus under sentence of 1 1/2 years for non-support. Custer was found guilty by a jury and Common Pleas Judge Raymond S. Buzzard refused his request for probation.

Koppers Unit Plans

Curtailment In Fall

Citing "slow" vitamin sales, the Koppers Co., Inc., plant at Arroyo south of Newell will curtail operations this fall.

Harry A. Kjellman, manager, said the work staff will be slashed from 25 employees to 10, with some to be transferred to other Koppers units.

Four employees of the East Liverpool area will be dismissed during the curtailment, which will begin in September.

Besides slow vitamin sales, a high niacin inventory also was cited for the curtailment. The niacin plant will be closed while a number of employees attend a work study program in September.

The experimental facilities of the plant will continue to operate after the vitamin section is closed.

Injunction Upheld

Against Ship Strike

NEW YORK (AP) — The U.S. Circuit Court of Appeals Tuesday upheld a lower court 80-day Taft-Hartley injunction against renewal of a maritime strike before Sept. 21.

Youth Admits Shooting Girl

PAINESVILLE, Ohio (AP) — A 17-year-old Eastlake boy has admitted shooting his 17-year-old Mentor girl friend in a lovers' quarrel, Chief Deputy Edwin Sjo of Lake County said.

The boy, Fred Quellhorst, was scheduled to appear in juvenile court today in the shooting of Joanne Falls. The girl was shot through the head by a revolver bullet in the recreation room of the Quellhorst home Tuesday.

Police said Quellhorst and the girl had had an argument recently. He said the boy admitted he had been brooding over this.

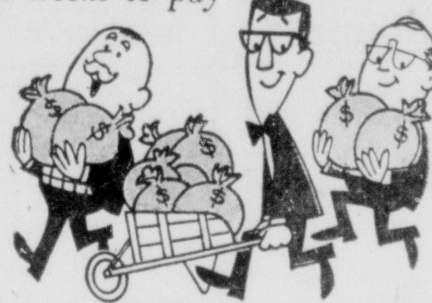

Quellhorst called Joanne and invited her to his home. The shooting occurred an hour later.

"When the shot was fired," the boy told police, "I grabbed her and dropped the gun. I hollered at her but she said nothing." He then telephoned police.

Police said Quellhorst told them the gun was kept in an upstairs bedroom closet. It is owned by his father, an Eastlake special policeman.
